

The New England Power Generators Association (NEPGA) in partnership with The Dupont Group will host the fourth annual New England Energy Summit, an event that will bring together industry leaders, end users and policymakers to address emerging issues and engage in impactful discussion. The Summit will be held at the Seaport Hotel Boston on Monday, December 12th, with a cocktail reception immediately following. We are excited to once again hold this event in person with plenty of space for adequate social distancing. We anticipate 200 attendees including industry professionals, trade association representatives and public officials from legislatures and regulatory agencies from across New England.

We and the Seaport Hotel will of course comply fully with all COVID-19 protocols required at that time by the Commonwealth of Massachusetts and the City of Boston and make every effort to ensure this is a safe and successful conference.

While the full agenda is still in development, we will again feature a CEO Roundtable of leaders of major energy companies as well as timely and topical panels with senior level speakers focusing on critical national, regional and state based energy policy. The event will be open to the media as we set the stage for important market and public policy issues looking into 2023.

To keep the cost of attendance low and to promote the Summit, we seek additional champions for our event. Specifically, we offer the following opportunities for sponsorship: Presenting Partner \$10,000; Reception Sponsor \$7,500; Contributing Sponsor \$5,000; Supporter \$2,500; and Friend \$1,000. Please review the attached "Sponsorship Opportunities" document for more detail. We will promote the Summit beginning this summer and would like to feature sponsors in our marketing efforts, so your early action is important.

We hope you find this opportunity attractive. If you have any questions, feel free to contact Tristin Craigue at tcraigue@dupontgroup.com.

Sincerely,
